

# ON A MISSION TO FREE THE WORLD FROM POINTLESS PLASTIC

## BE PART OF THE SOLUTION... NOT THE POLLUTION

Each year in the UK we drink 3bn litres of bottled water and 10bn bottles go to landfill. The mountain of single-use plastic bottles left at festivals is a big part of the problem.

If your festival is still creating too much litter from single-use plastic, make the switch now. Join us on our mission to free the world of pointless plastic, one water bottle at a time.

## 5 REASONS TO CHOOSE RAW BOTTLES

1. The RAW bottle is the best bottle available, at the keenest price, offering you great profit margins. Bottles start at just £5.98, with an RRP of £15.
2. The RAW Bottle is beautiful and ready for your bespoke designs - choose between etch, mono or colour printing in 500ml or 750ml.
3. Join leading festivals choosing RAW Bottles, including Glastonbury, Shambala, Port Eliot, Boomtown, Cropedy, Arcadia, Greenbelt and Fire in the Mountain. We are also the official Reusable Bottle Partner for the AIF.
4. Take a step toward being pointless plastic free and reducing litter. 480bn plastic bottles were sold globally in 2016 - that's a million bottles per minute, according to Euromonitor. Each reusable RAW Bottle sold helps to prevent approximately 167 single-use bottles from going to landfill per year.
5. We are award winning! Our bottles recently won the Green Supplier & Innovation award at the Showman's Show and were shortlisted in the Green Supplier category at the Festival Supplier Awards.

## FIND OUT MORE

1. If you're concerned about plastics and ready to take action, please get in touch for a quote and a mock-up of your bespoke bottle design: [sales@raw-bottles.org](mailto:sales@raw-bottles.org)
