

HANDY TIPS FOR GREEN CAMPERS

- Minimise the amount of packaging on products you buy
- Avoid buying over-packaged goods and individual portion packs
- Buy durable products, returnable bottles and containers that can be re-filled
- Look out for recycled goods and those packaged in recycled materials
- Cut down on packaging by buying your fruit and vegetables loose
- Buy fair-trade and organic food, drinks and products at stalls if possible
- use re-sealable containers to keep your food fresh (this reduces the amount of plastic film and aluminium foil you throw away)
- Use rechargeable batteries
- Where you can, **recycle what you cannot reuse**
- Don't drop your litter. Use the bins and recycling units!
- Litter pickers are lovely! Please help them and make up for 'messy' times
- Car share or use public transport
- Turn off taps & showers when finished
- Don't leave rubbish or indeed your entire camping set behind!
- Re-use your carrier bags
- Take recycling and waste bags to keep you campsite clean & tidy

Live by the 'LEAVE NO TRACE' philosophy.
